Ben's First Day

Setting up CalibraytAI and running a real working day, step by step

In CalibraytAI: **Company** → **Getting started**. The same sixteen steps are there, each with a **Go there** button. Steps tick themselves when the work is in CalibraytAI; the others you tick with **Mark done**. Your progress is saved for the whole company.

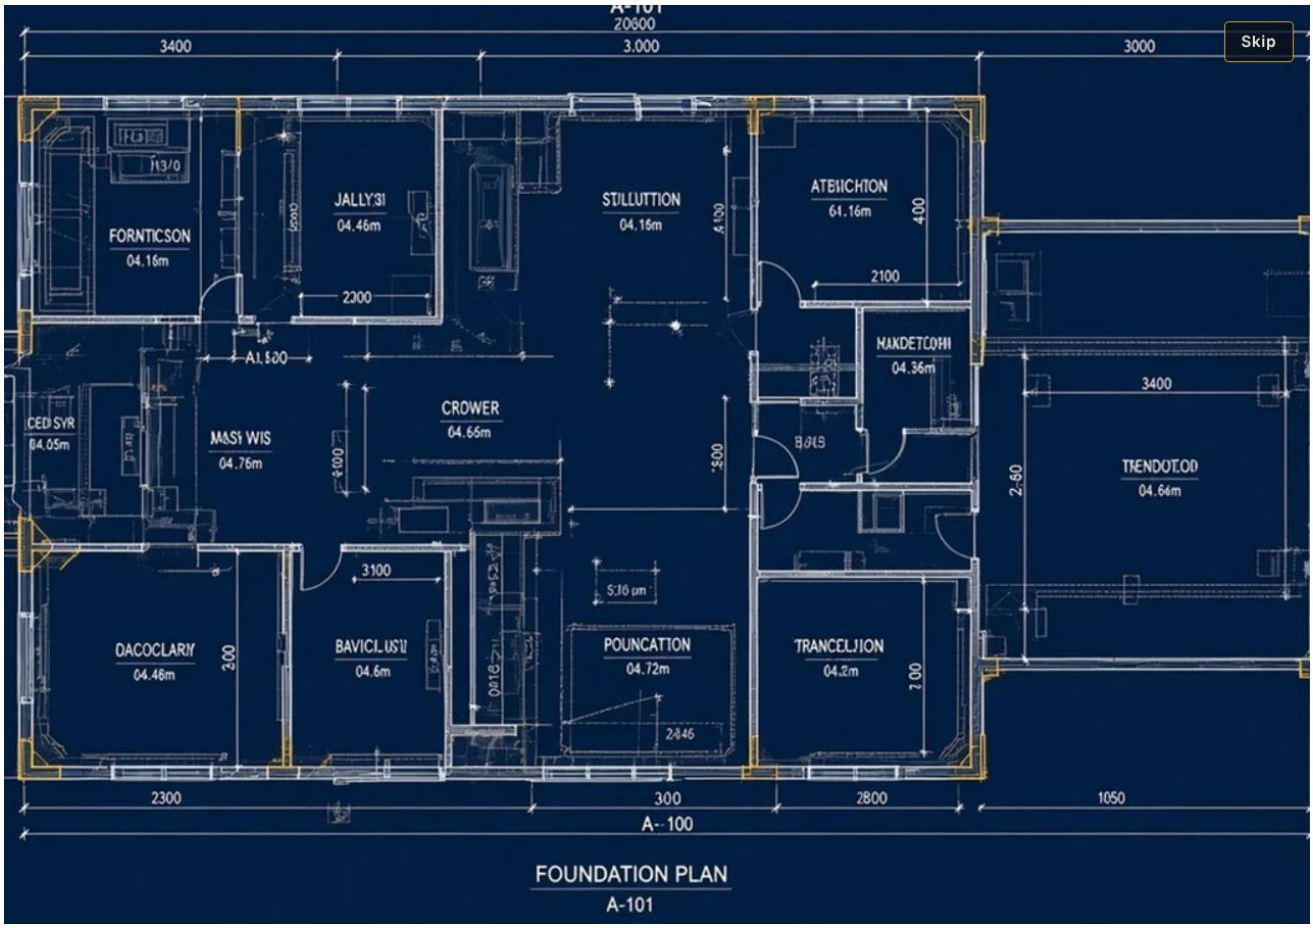

Every picture is a real screen from a synthetic company (Brayman Construction training data, a synthetic customer, crew and supplier). No real customer or price appears.

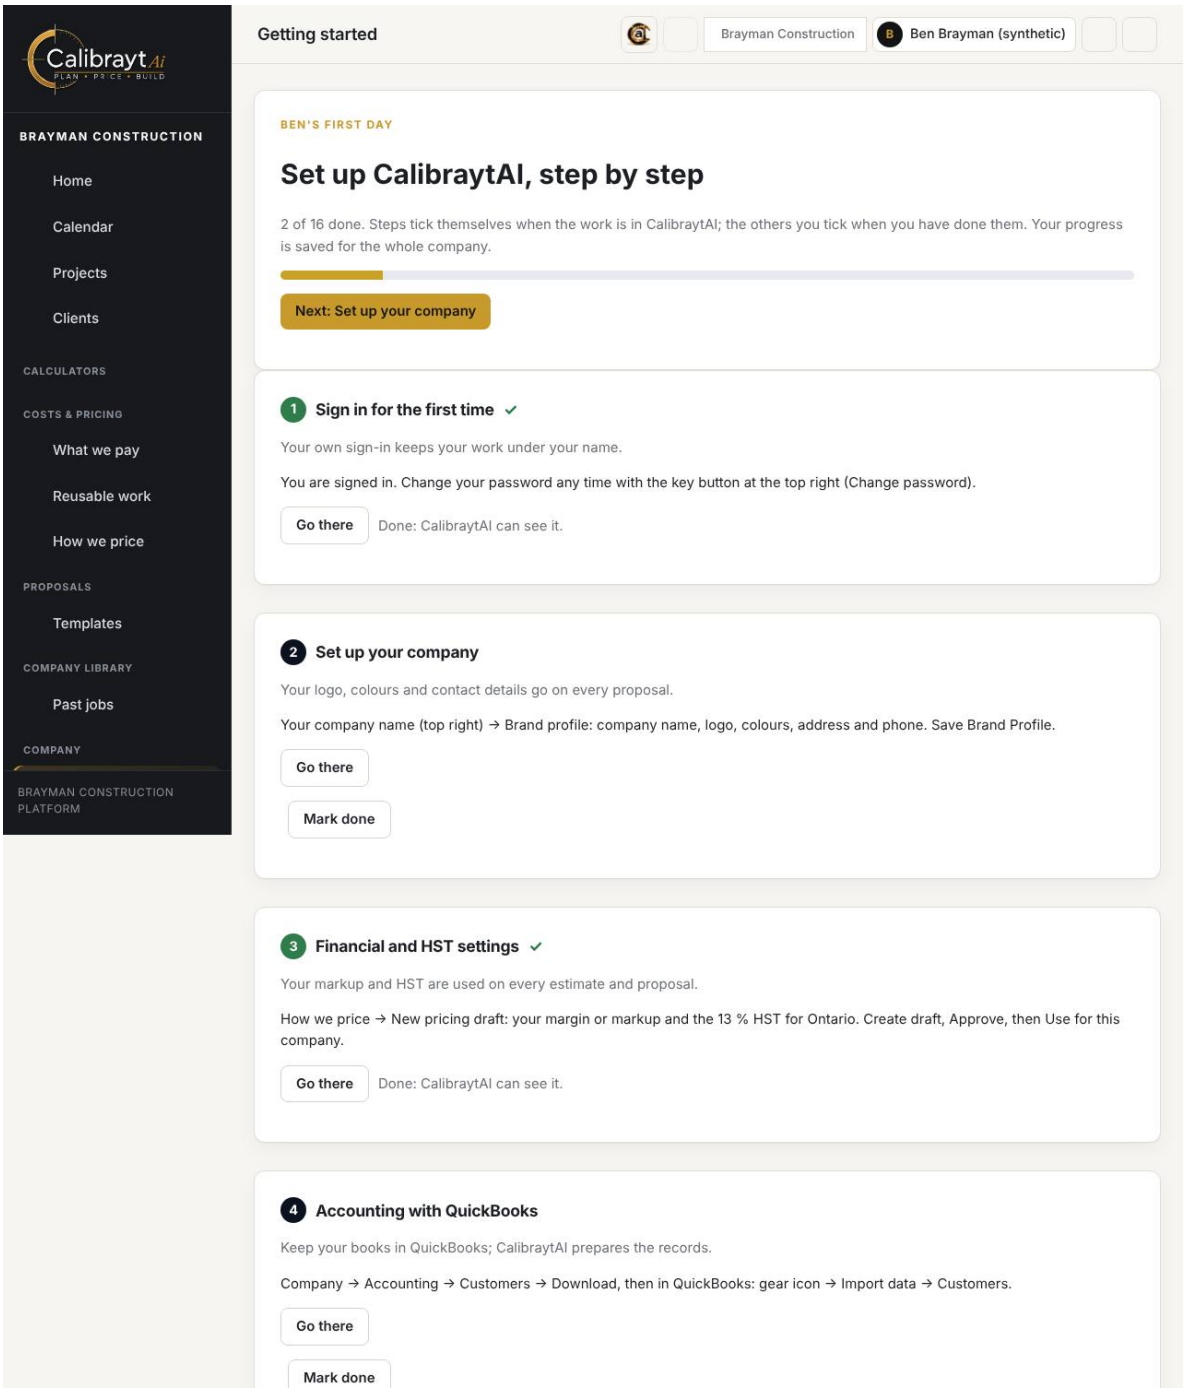

Screens and steps verified on v1rel7 candidate (local walk), commit 713f1b638073. Where this manual and the screen differ, the screen is right; tell Joel.

1. Sign in for the first time

Your own sign-in keeps your work under your name.

You are signed in. Change your password any time with the key button at the top right (Change password).

BEN'S FIRST DAY
Set up CalibraytAI, step by step
2 of 16 done. Steps tick themselves when the work is in CalibraytAI; the others you tick when you have done them. Your progress is saved for the whole company.
Next: Set up your company
1 Sign in for the first time
Your own sign-in keeps your work under your name.
You are signed in. Change your password any time with the key button at the top right (Change password).
Go there
Done: CalibraytAI can see it.
2 Set up your company
Your logo, colours and contact details go on every proposal.
Your company name (top right) → Brand profile: company name, logo, colours, address and phone. Save Brand Profile.
Go there
Mark done
3 Financial and HST settings
Your markup and HST are used on every estimate and proposal.
How we price → New pricing draft: your margin or markup and the 13 % HST for Ontario. Create draft, Approve, then Use for this company.
Go there
Done: CalibraytAI can see it.
4 Accounting with QuickBooks
Keep your books in QuickBooks; CalibraytAI prepares the records.
Company → Accounting → Customers → Download, then in QuickBooks: gear icon → Import data → Customers.
Go there
Mark done

2. Set up your company

Your logo, colours and contact details go on every proposal.

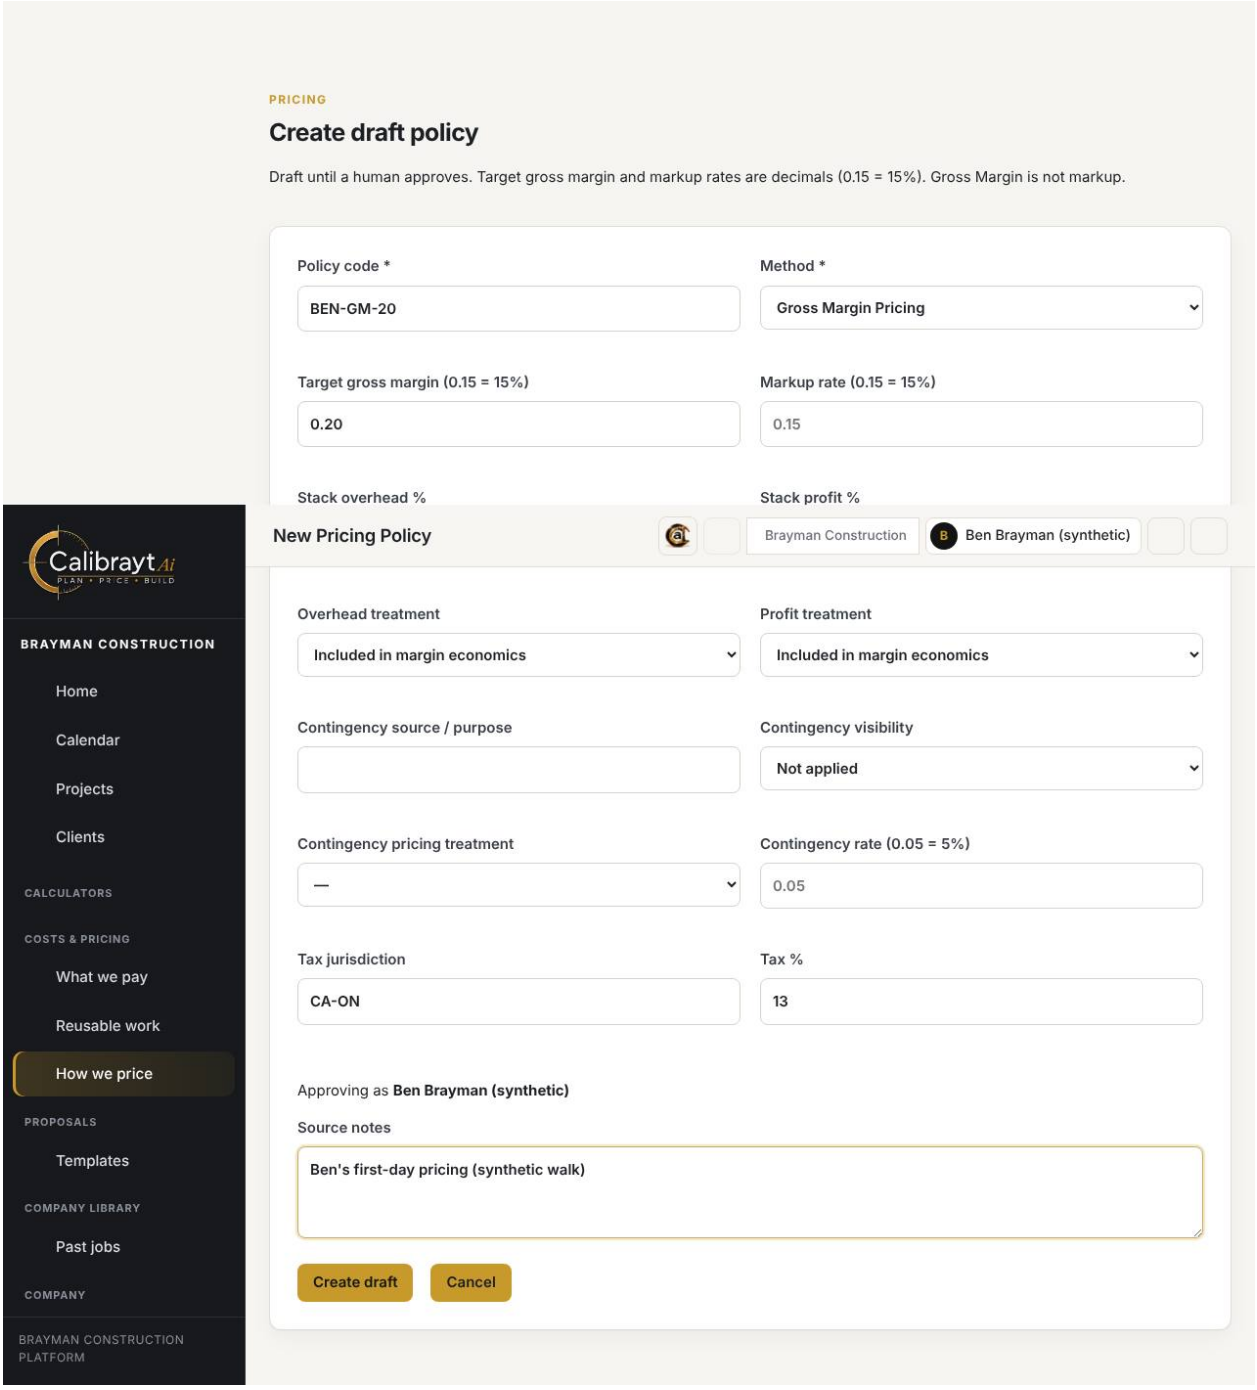

Your company name (top right) → Brand profile: company name, logo, colours, address and phone. Save Brand Profile.

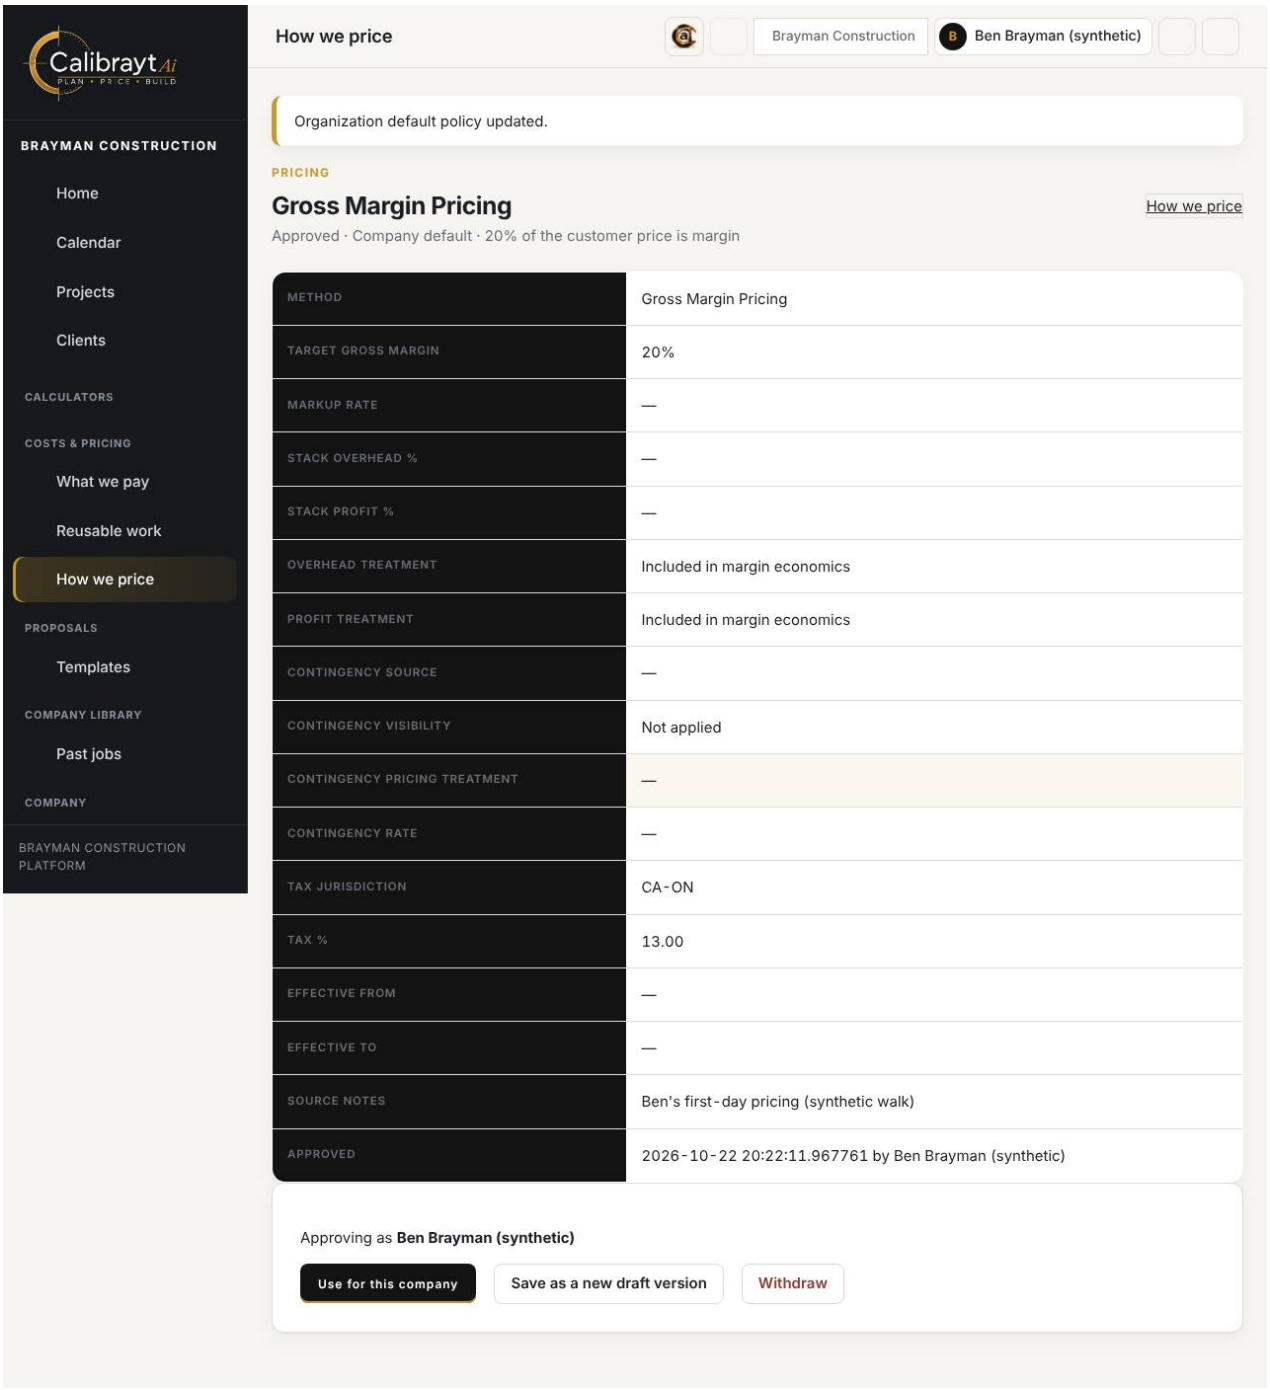

3. Financial and HST settings

Your markup and HST are used on every estimate and proposal.

How we price → New pricing draft: your margin or markup and the 13 % HST for Ontario. Create draft, Approve, then Use for this company.

16. Run a complete working day

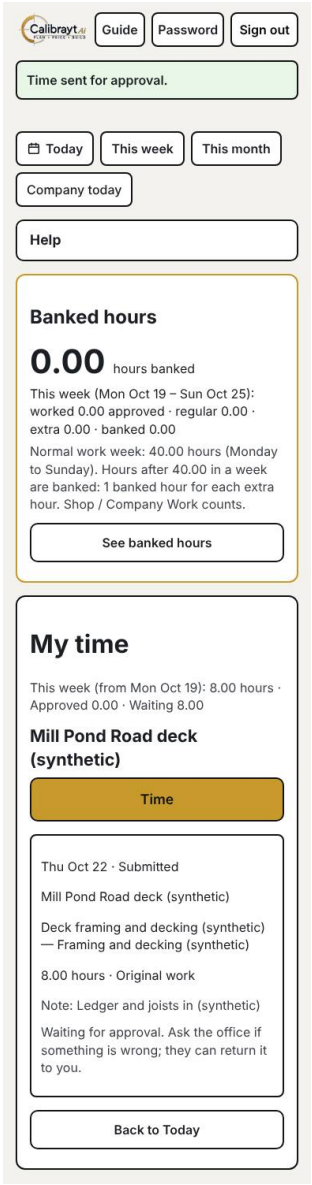

Schedule, field time, deliveries and changes, end to end.

Check Home in the morning, follow the job on Field, approve time, answer deliveries. Mark done after a full day.
